

## News for 04/10/07

Hi,

Here are flow rates for our new 2 bbl carbs with different butterfly sizes. Remember, these are the only 2bbls that can bolt directly to a 4150 manifold.

Butterfly	CFM at 10" water	CFM at 20" water	CFM at 28" water*	Booster Signal
1.750"	474	665	750	45" at 10" water
1.875"	528	728	856	45" at 10" water
2.000"	618	846	1009	39" at 10" water

\* 2bbls are normally rated at 28" of water; use these figures when comparing to other 2bbls.

John

PS: If anybody has a copy of my 1992 Superflow Presentation on VHS, please contact me.

Here are some shots of the 1.750 just in before anodization.
