

THE dAMBEST...

News for 05/15/07

Hi,

We are asking for suggested dates within the given time periods for our upcoming classes.

Carb tuning: last 2 weeks of Oct - 1st 2 weeks of Nov

Dyno operation: January

Crew Chief: February

Classes are for 5 days and are limited to 10 people per class. Price per person is \$500.

John

PS: If anybody has a copy of my 1992 Superflow Presentation on VHS, please contact me.

Here are some shots of the 1.750 complete with anodization and 4150 style baseplate.

Here are flow rates for our new 2 bbl carbs with different butterfly sizes. Remember, these are the only 2 bbls that can bolt directly to a 4150 manifold.

Butterfly	CFM at 10" water	CFM at 20" water	CFM at 28" water*	Booster Signal
1.750"	474	665	750	45" at 10" water

1.875"	528	728	856	45" at 10" water
2.000"	618	846	1009	39" at 10" water

* 2 bbls are normally rated at 28" of water; use these figures when comparing to other 2 bbls.
