

World's leader in Billet Carburetors

News for 06/23/09

dAMBEST 40 Years and counting!

Hello Everyone!

It is *dAMBEST*'s 40th anniversary! Who knew on June 18, 1969 that Dutchess Automotive Machine Shop would become *dAMBEST* Carburetor some day. Now, holding five US Patents with more on the way gives us the ability to lead the fuel system suppliers into the 21st century. Just some of the innovations I've brought forth in my career include things like the [valve train dyno](#) in the 1970's, and the Big cam, roller and high ratio rockers in the 90's. Turning my focus to carburetors, fuel systems and combustion in the late 90's brought us to today, WOW!

I would like to thank all of my supporters over the years!!!

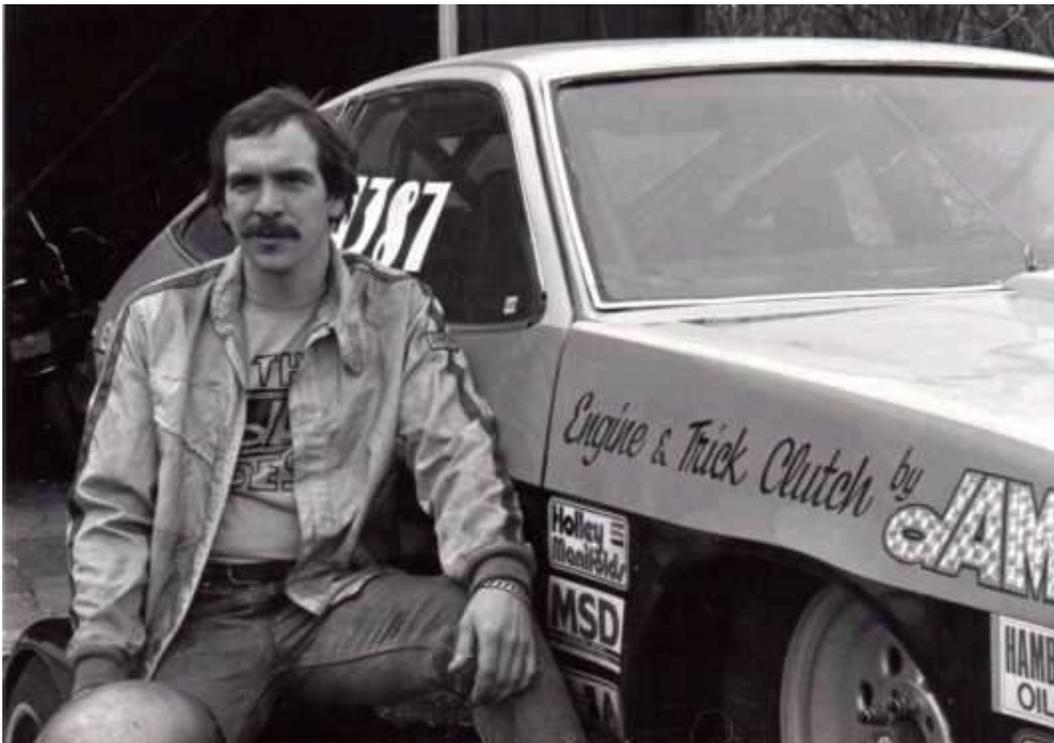

John

Me in early 1970's with my Corvette and a race win trophy.

My first purpose built race car. Engine from Dan Jesel's CMS.

Yes, at one time I had hair with color.

Today... Yeah, I know, I am getting older!

Other News

- The best news you can find on the web, [dAMBEST NEWS](#). You can now look at all of the news letters we have ever done on the web.
- This year's [Carb Tuning Class](#) is now taking form. It will be in late October, like last year, and it will be a three day course, like last year. We are still considering the days. Last year it was Friday, Saturday and Sunday. This year we are considering Thursday, Friday and Saturday if that is better for everyone.

Great news! *dAMBEST* is now an officially accepted carburetor brand in the Australian National Drag Racing Association, [ANDRA](#)! We are legal in Pro Stock events. Our [4500 Series](#) and [Split 4500 Series](#) carb would be recommended.

PS: \$400 REWARD for a copy of my 1992 Superflow Presentation on VHS!
