dAM 4150 Series Carbs

Hi Again,

Pictures of the New Curvaceous look have just been added to the brochure for our 4150 Series. All our carb brochures are on-line at dambest.com . Click on either Carbs or Carb Prices.

John

dAM 4150 Series Carbs

"The switch is on"

The *dAMBEST* billet carbs are the most powerful and responsive carbs of their size. Every angle of throttle position is adjustable, and adjustable linkage allows control of the rate at which the secondary is applied.

dAM has five US patents in fuel emulsion technology incorporated into the metering blocks to reduce droplets to previously unattainable size.

dAM's patented, lightweight billet body allows for custom sizes and takes into account air cleaners and air pans to aid air distribution around the booster and through the manifold.

Venturi	Butterfly	Booster	CFM @ 10" water	CFM @ 20" water	Wet CFM @ 17" water	HP Range	Price USD
1.250"	1.688"	Down Leg	528	761	600	250-650	\$1,599.00
1.475"	1.688"	Skirted	650	820	640	350-700	\$1,599.00
1.515"	1.688"	Skirted	675	900	680	450-725	\$1,599.00
1.585"	1.688"	Skirted	700	933	760	450-775	\$1,599.00
1.585"	1.750"	Skirted	720	994	788	500-850	\$1,599.00
1.585"	1.750"	Straight	TBA	1050	802	575-900	\$1,599.00

The result is 50% more booster and about 50 times the emulsification of modified other brands. Air cradles the fuel droplet in a totally new way reducing manifold wetting - a major problem in previous carburetor designs.

Each carb has its own build sheet and serial number. Pictured is the Big Billet, with Skirted Booster .

Every dAM carb is serial numbered with it's own build sheet, and wet flow sheet.
