

World's leader in Billet Carburetors

News for 11/19/10 *dAMBEST* is rolling!

We keep working!

With ever increasing fuel issues, we have decided to offer as an option to our regular 4500 series new roller bearings.

As I said a few weeks ago, we are working on our new layout for the overwhelmingly large incoming good news each week. The *dAMBEST* blog is done, but the navbar is not. So for now just click on *dAMBEST* blog and that will get you there. If you want to be notified each time there is an entry, just reply to this news letter with the word "Blog".

I will also be at both the IMIS and PRI. I will not have a booth this year. I just have too much going on to cart all that stuff around, so I will be walking the floor working with dealers. You can call the shop phone number to reach me at either show,,, 845 473 1136.

Thanks for making us a part of your project,
John

4500 shafts with our new rollers

Sealed rollers for the Ultimate Series

P.S.

- When running VP fuels, you will need to WD-40 your linkage and shafts after each day's use. This is very important to keep linkage free on **dAMBEST** carbs.
- If you would like us to post your car, please forward a photo.

Other News

- The best news you can find on the web, [dAMBEST NEWS](#). You can now look at all of the news letters we have ever done on the web.
- Our Carb Tuning Class has been so well received that we offer recordings of it on CD and DVD. Coming down the line is the on-line version of the class that will be great for those who just can't get away for the 3 days. They'll be able to cover the material at their own pace on their own schedule.
- Great news! **dAMBEST** is now an officially accepted carburetor brand in the Australian National Drag Racing Association, [ANDRA](#)! We are legal in Pro Stock events. Our [4500 Series](#) and [Split 4500 Series](#) carb would be recommended.
- When running VP fuels, you will need to WD-40 your linkage after each days use. This is very important to keep linkage free.

PS: \$575 REWARD for a copy of my 1992 Superflow Presentation on VHS!
